Recent Projects

ONLINE CAR SHOWROOM PORTAL

March 2024 - May 2024

Developed an Online Car Showroom Portal that allows users to buy, sell, and explore cars through a web-based platform. The system includes detailed car listings, user authentication, and an integrated car servicing module for booking and tracking services. It also features an admin dashboard for managing users, vehicles, and service requests efficiently**.**

AI TRUST SCORE FOR ONLINE CONTENT March 2026

Developed an AI-based system that assigns a trust score to online content using machine learning and NLP techniques. The system analyzes text, evaluates credibility factors, and generates a score to help users identify reliable and misleading information.
